

# JDX'S SUSTAINABLE FINANCE SOLUTIONS

An urgent need for tangible results - how do we connect the immense reallocation of capital to meaningful solutions?

## Drivers for financial institutions:

- ✓ Business decarbonisation strategy
- ✓ ESG credentials
- ✓ Investor demand
- ✓ Taxonomy alignment
- ✓ Disclosure & reporting
- ✓ Stress testing
- ✓ Risk management

## Key challenges:

- ⚠ Risk of greenwashing
- ⚠ Transition & reputational risk
- ⚠ Lack of standardisation
- ⚠ Data quality & integration
- ⚠ Complex regulatory frameworks
- ⚠ Lack of best practice

## JDX targets 6 stages of sustainable change:

- 🎯 Understanding & strategising
- 🎯 Screening & scoping
- 🎯 Measuring & categorising
- 🎯 Disclosure & reporting
- 🎯 Monitoring & improvement planning
- 🎯 Iterative review

## Our solutions:

We can support our clients with the **skills and capacity** required to reach their sustainability objectives. JDX offers resource augmentation to support with the **implementation** of sustainable development in firm infrastructure.

- ✓ Market infrastructure working groups
- ✓ Strategy, business analysis & design
- ✓ Assessment, discovery & scoping
- ✓ Project & programme delivery
- ✓ Database review & due diligence
- ✓ Data management, remediation & analytics
- ✓ Client outreach & query management
- ✓ Regulatory reporting & sustainability
- ✓ Business architecture & process improvement
- ✓ Technology consulting
- ✓ Transform, operate & optimise

## Our specialist domains:

## Our specialist competencies:
